ASPIRE TO THE EAST

King Solomon was a wise man. He lived in the East and built his temple on a hill. If he were living in Honolulu today he would hasten to select a site on PALOLO HILL and build a marvelous temple. If King Solomon would do this—and we feel sure that he would—why don't YOU be as wise and go eastward and build your home? Why don't you make your own beautiful temple—home on the higher elevations—on the bosom of the glorious hills—up where the pure, cool breezes blow—up nearer to the stars—nearer to God. The center of population is moving eastward—and moving rapidly. The Kaimuki District is out-growing its suburban clothes and is putting on the up-to-date habiliments of the Greater Honolulu.

You know
where
your money
is and
what it is
doing
when in-
vested at

This dis-
tinctive
suburb is
singularly
fortunate
in both
location and
environ-
ment

CONSTRUCTING THE WINDING ROADS OF PALOLO HILL.

Something Worth While Knowing

Investing in Real Estate is just like sowing dimes and reaping dollars.
The man who neglects to provide a home for his wife and family usually has a loyal loving and devoted wife who takes in washing.
There is only one thing as sure as death, and that is taxes and the rent collector, if you live in a borrowed home.
No investment on earth is so safe, so sure, so certain to enrich it's owner as undeveloped realty.
If you want your money to make money and make it quick, invest it in undeveloped suburban property near a grow-
ing city.
The most successful men in the country will tell you that the way to make money honestly, surely and safely is via the Real Estate Route.
No matter what you plant or where you plant your money it will grow and yield more seed and it is always safe planted in Real Estate.
The man who does not desire to acquire Real Estate is either a millionaire or a fool.
